SOCIETY’S INVESTMENT
The Economic Value of Front Range Community College | May 2017

Benefits created by FRCC extend to far more people than just its students. As students and employers enjoy higher earnings and increased output, society as a whole benefits from an expanded economy and a range of savings associated with the students’ improved quality of life.

FRCC RAISES PROSPERITY IN COLORADO

- Students earn more because of the skills and qualifications they acquire at FRCC. Further, employers earn more because the added skills of the students they hire make their businesses more productive.

- Together, increases in earnings and business output stimulate corresponding increases in earnings and employment throughout the state. Over their working lives, FRCC’s FY 2015-16 student population will increase the state’s economic base by $3.6 billion.

FRCC IMPROVES QUALITY OF LIFE

- As FRCC students achieve higher levels of education, they are statistically more likely to develop good health habits. This leads to a present value of $42.4 million in savings to students and to society as a whole for medical treatments related to smoking, alcoholism, obesity, drug abuse, and mental disorders.

- Students enjoy better employment opportunities as a result of their education at FRCC. This makes them less likely to require earnings assistance and less likely to commit crimes. These effects translate to a present value of $372.6 thousand in unemployment-related savings and $10.7 million in law enforcement savings to society as a whole.

- Altogether, savings to society amount to a present value of $53.5 million, equal to the sum of avoided costs related to health, crime, and unemployment.

BENEFITS TO SOCIETY OUTWEIGHT SOCIAL COSTS

- In FY 2015-16, society invested $226.8 million in FRCC educations. This includes all FRCC expenditures, all student expenditures, and all student opportunity costs. In return for this investment, society as a whole will receive a present value of $3.6 billion in benefits, the sum of the increased economic base and social savings that FRCC’s 2015-16 student population will generate in the state.

- For every dollar spent on FRCC educations, society as a whole in Colorado will receive a cumulative value of $15.90 in benefits, for as long as FRCC’s 2015-16 students remain active in the state workforce.

PRESENT VALUE OF SOCIAL SAVINGS

- $0.4 million in unemployment
- $10.7 million in crime
- $53.5 million in total
- $42.4 million in health
