

# Immersive and Game-Based Learning Student Survey

## Introduction

The Colorado Community College System (CCCS) is working with JVA Consulting to better understand how to improve student learning and success.

This survey is all about IMMERSIVE and GAME-BASED LEARNING, which describes learning by playing games or using interactive situations (like an online environment or a real-life simulation) to help you learn better and to bring your learning to life.

One of the classes you are taking is an immersive or game-based learning class, which has been specially designed to provide a unique and different learning experience for you. We want to hear from you about how you enjoyed this class and how it might have helped you learn better.

This survey should take about 10 minutes to complete. We will keep all your answers confidential so that your name will NOT be attached to any of the information you provide. These data will be reported in aggregate such that no one, including your teachers, will be able to identify you when the results are reported.

If you have questions about this survey, please feel free to contact Angie White at: 303.447.4896 or [Angie@JVAConsulting.com](mailto:Angie@JVAConsulting.com)

Thank you so much for your participation, we really appreciate it!
